Dear Members of the Tracy City Council,

As a long-standing business owner in Tracy, I am writing to express my strong opposition to the proposed water park. This project is a wasteful and misguided use of city funds, time, and resources.

If Ellis promised a water park to homebuyers, that obligation rests solely with them—not the City of Tracy. They should fund and build it themselves. The city can barely afford to operate our small community pool for more than a few weeks each summer. Attendance at swim classes, open swim, and movie nights is minimal and does not justify further investment.

This proposal is nothing more than a vanity project pushed by Surland Homes to mask their long history of unfulfilled promises. Their persistent interference has been a source of frustration for years. They have complicated the city's planning processes and continue to wield undue influence over council decisions.

Meanwhile, essential infrastructure is being neglected. Roads across Tracy are in disrepair, including the pothole-riddled stretch in front of North Elementary School, which I drive past daily. These are the kinds of real, immediate issues the city should be addressing.

Tracy is experiencing significant population growth, yet our infrastructure, business climate, and recreational opportunities have not kept pace. We should be investing in solutions that support that growth—improving roads, expanding services, and making Tracy more business-friendly to attract employers and give families and children better opportunities locally.

Tracy must move beyond being a commuter town. Projects like this water park do nothing to solve that. We've already seen wasteful spending on Legacy Fields. Let's not repeat the same mistake.

You do not have my support for this project, and I will be ensuring this message is delivered to all relevant departments and city officials.

Sincerely,

Natasha Worthington & Kerry Sanford

Dear Honorable Council Members,

My name is Steven Muñoz, a long-time Tracy resident, and I am writing to express my strong opposition to the proposed development of a water park in our city. While I recognize the desire to bring recreational attractions and economic growth to Tracy, the reality is that a water park poses serious concerns that cannot be overlooked.

1. Severe Water Scarcity

California has faced years of prolonged drought, and Tracy is no exception. Water parks use millions of gallons annually—not just for pools and attractions, but also for landscaping, sanitation, and evaporation loss. At a time when residents are being asked to conserve water and future supplies are uncertain, it is both environmentally and ethically irresponsible to support a water-intensive project of this scale.

2. Infrastructure and Traffic Burden

A water park would dramatically increase seasonal traffic and strain our already overburdened infrastructure. Roads, emergency services, waste management, and law enforcement will be required to absorb the overflow—without a guarantee that increased revenue will fully cover those costs. Adjacent neighborhoods would see an immediate decline in quality of life due to noise, congestion, and potential safety concerns.

3. Financial Risk to the City

History has shown that water parks are rarely the economic windfalls they claim to be. These facilities are expensive to build, expensive to maintain, and highly vulnerable to seasonal fluctuation, staffing shortages, and liability issues. If attendance drops or operating costs balloon—especially during drought-related shutdowns—it's the taxpayers who will ultimately

bear the burden.

4. Environmental Impact

Construction and ongoing operation will harm local ecosystems, increase chemical runoff, and disrupt wildlife corridors. Tracy has an opportunity to lead with smart, sustainable development—building something that benefits the community without depleting our limited natural resources.

5. We Deserve Better Options

There are far better uses of city funds and land that align with Tracy's needs. Investments in year-round community centers, upgraded splash pads, shaded parks, or youth programming would serve more residents, require less water, and build long-term value for families and children without waste or risk.

I respectfully urge the council to reject this proposal and consider more sustainable, inclusive, and resource-conscious options for our city's growth. Tracy has a chance to make a bold and responsible decision—not just for today, but for future generations.

Sincerely,

Steven Muñoz

Dear Mayor and City council

Please do not waste our money on Aquatic Center in Tracy we have homeless veterans on the street and our roads need to be repaired all over the place we can spend this money in much better places than on a pool when there are other pools in the area that could be utilized for the same thing that the city owned

Thank you.

Dear Mayor and City Council,

As a long time resident of Tracy, I am against having the aquatic park in Tracy.

We do not need the added crime, traffic, and waste in Tracy for the benefit of the business owner while we pay for it.

We need high quality business in this city that uplifts the community.

Thank you.

Sincerely,

Wali Razaqi

Dear Mayor and City Council,

am writing to state my unequivocal opposition to the proposed water park project in Tracy. This development is not only an impractical use of our city's resources — it is a direct threat to our water security, environmental health, and community well-being.

1. Severe Water Waste

We live in an area that faces chronic drought and strict water restrictions. A water park would consume millions of gallons every year, with significant losses to evaporation during our extreme summer heat. Recycling systems cannot make up for this waste. Every gallon spent on a seasonal attraction is a gallon taken from our homes, farms, and essential services.

2. Environmental and Public Health Risks

The constant use of chlorine and other chemicals poses risks to our air, soil, and groundwater. Combined with the high energy demands for pumping, heating, and maintenance, this project undermines Tracy's environmental goals and contributes to long-term ecological harm.

3. Strain on Roads, Safety, and Services

The traffic influx from outside visitors will overwhelm our already congested streets, increase noise pollution, and create new public safety challenges. More patrols, emergency responses, and infrastructure repairs will be needed — costs that taxpayers will bear.

4. Financial Gamble with Public Consequences

Water parks are notoriously expensive to maintain, and many across the country have failed within years of opening. If revenue falls short, Tracy's residents could be left paying for a costly mistake.

Better Alternatives Exist

Instead of pouring resources into a high-risk attraction, Tracy should invest in sustainable community improvements: shaded public parks, sports facilities for youth, water-wise recreation spaces, and infrastructure upgrades that benefit residents year-round.

I urge the council to reject this proposal and protect our city from the environmental, financial, and quality-of-life damage it will cause.

Respectfully,

Steven Munoz

Dear Mayor and City Council,

I strongly encourage you NOT to adopt the 'Community Design Plans for an Aquatic Park'. Instead, I urge you to stay the course and continue forward with the realistic and affordable implementation of plans for an aquatic center that addresses the needs of Tracy residents for a second swimming and water recreation facility.

Of course we have long needed to augment the Joe Wilson Pool facility. It's long past time for the city to proceed with the amenity projects prioritized by residents, and use the Measure V funds for their intended purpose.

Unfortunately between deceptive developer promises, duplicitous dealings by past councils and special interests, legal judgements and lawsuits, the original concept has been delayed and costs risen to absurd.

Our current project has been scaled for success, despite increased cost. It is distressing that the delays not only held up a much desired aquatic center, but have held up the Nature Park which is another equally vital amenity.

And please note: there are multiple options to enjoy large water parks nearby. And you can even enjoy a cooling dip in our local community pool. But there are ZER0 community Nature Parks in Tracy.

So, please, put all the past politics aside, and be the council that finally sticks to the schedule, delivers the affordable, reasonable and long awaited community aquatic center. Then we can finally get around to delivering a true gift to Tracy: an ecological buffer zone for local climate issues, environmentally sustainable, and for residents of any age, socio-economic, or political persuasion, providing habitat for wildlife, and for us humans, a respite from the hustle and bustle of daily life.

Thank you.

Sincerely,

Lisa Roth

Dear Mayor and City Council, I urge you to reprioritize the Tracy Aquatic Park and implement the Community's Aquatic Park Design Plans – plans developed over two decades through extensive collaboration with city staff, civic leaders, and residents. Since the passage of Measure V, the Aquatic Park has consistently been identified as a vital community amenity, with funding approved in both 2018 and 2020. However, recent staff decisions have sidelined this project in favor of the Multi-Generational Rec Center, whose cost and scope were more than doubled to include city offices and department relocations, none of which were part of the original vision. In contrast, the Aquatic Park was reduced to a bare-bones design and constrained by a restrictive budget cap, unlike Legacy Fields or the Multi-Gen Center. The community deserves the inclusive, year-round aquatic facility it was promised, one that serves all ages and abilities. I respectfully ask this Council to honor the city's longstanding commitment and adopt the Community's Aquatic Park Design. Sincerely,

Yvonne & James Boyd

Since the passage of Measure V, the Aquatic Park has consistently been identified as a vital community amenity, with funding approved in both 2018 and 2020. However, recent staff decisions have sidelined this project in favor of the Multi-Generational Rec Center, whose cost and scope were more than doubled to include city offices and department relocations, none of which were part of the original vision.

In contrast, the Aquatic Park was reduced to a bare-bones design and constrained by a restrictive budget cap, unlike Legacy Fields or the Multi-Gen Center.

The community deserves the inclusive, year-round aquatic facility it was promised, one that serves all ages and abilities.

I respectfully ask this Council to honor the city's longstanding commitment and adopt the Community's Aquatic Park Design.

Sincerely,

Rosalynn Lenormand

Dear Mayor and Members of the City Council,

I am writing to strongly encourage you to adopt and implement the Community Design Plans for the Aquatic Park — the result of many years of dedicated community collaboration, vision, and hard work.

These plans reflect the voices and needs of our residents, creating a world-class park that will serve people of all ages, backgrounds, and abilities. The Aquatic Park will not only enhance quality of life but also become a long-awaited destination for Tracy — a space that fosters recreation, connection, and pride in our community.

By moving forward with the implementation of these plans, you will be honoring the time, energy, and commitment that countless community members have invested to ensure this park is welcoming, accessible, and vibrant for generations to come.

I urge you to take the necessary steps to make the Aquatic Park vision a reality. Our community deserves this transformational space, and the time to act is now.

Thank you for your service and commitment to the people of Tracy.

Sincerely,

Gabriela

Dear Mayor and City Council,

I urge you to reprioritize the Tracy Aquatic Park and implement the Community's Aquatic Park Design Plans – plans developed over two decades through extensive collaboration with city staff, civic leaders, and residents.

Since the passage of Measure V, the Aquatic Park has consistently been identified as a vital community amenity, with funding approved in both 2018 and 2020. However, recent staff decisions have sidelined this project in favor of the Multi-Generational Rec Center, whose cost and scope were more than doubled to include city offices and department relocations, none of which were part of the original vision.

In contrast, the Aquatic Park was reduced to a bare-bones design and constrained by a restrictive budget cap, unlike Legacy Fields or the Multi-Gen Center.

The community deserves the inclusive, year-round aquatic facility it was promised, one that serves all ages and abilities.

I respectfully ask this Council to honor the city's longstanding commitment and adopt the Community's Aquatic Park Design.

Sincerely,
Derone Thrasher

Dear Mayor and City Council,

I have been a resident of Tracy for over two decades. I would appreciate you implementing the Aquatic Park Design Plans. We have been waiting all these years, through two births and three adoptions. I now have special needs kids who would LOVE to use an accessible water park.

At the present, we have to drive to Dublin or Sacramento, and we can't afford Great Wolf Lodge. I would much rather give our money to my city!

Since the passage of Measure V, the Aquatic Park has consistently been identified as a vital community amenity.

The community deserves the inclusive, year-round aquatic facility that has been planned, one that serves all ages and abilities.

I respectfully ask this Council to adopt the Community's Aquatic Park Design.

Sincerely,
M Peggy Baratta

Dear Mayor and City Council,

I have lived in Orange County my entire life and relocated to Tracy for work 11 years ago. I deeply disappointed in the City of Tracy's growth – EVERY surrounding City is growing, EXCEPT TRACY. Every City has activities, food, dining, etc except tracy.

If I want to take my kids to a water park, I cant. I need to go elsewhere.

If I want to take my kids to a Dave and Busters, I cant. Need to go elsewhere.

If I want to take my kids to do anything fun, I have to leave this town. You are doing the kids/YOUTH a MAJOR disservice, there is nothing in this town that encourages or promotes interaction with other kids. GET THE AQUATIC PARK DONE!!!

I urge you to reprioritize the Tracy Aquatic Park and implement the Community's Aquatic Park Design Plans – plans developed over two decades through extensive collaboration with city staff, civic leaders, and residents.

Since the passage of Measure V, the Aquatic Park has consistently been identified as a vital community amenity, with funding approved in both 2018 and 2020. Dear Mayor and City Council Members,

This letter addresses the concerning disparity in resource allocation between the Tracy Aquatic Park project and the Multi-Generational Recreation Center. The Aquatic Park, a project championed by the community for over two decades and culminating in collaboratively developed design plans, has received significant community support and funding approvals in both 2018 and 2020 following the passage of Measure V. Despite this established commitment, recent budgetary decisions have resulted in a significantly scaled-down version of the Aquatic Park, contrasting sharply with the significantly expanded scope and budget of the Multi-Generational Recreation Center. The expansion of the Recreation Center to include city offices and departmental relocations, elements absent from its original proposal, has seemingly diverted resources away from the Aquatic Park, leaving it with a drastically reduced budget and a design that fails to meet the community's expectations.

The original vision for the Aquatic Park envisioned an inclusive, year-round facility accessible to all ages and abilities. The current budget constraints and resultant design compromises directly contradict this vision and the city's long-standing commitment to this vital community amenity. We urge the Council to reconsider the current resource allocation and approve the community-developed design for the Tracy Aquatic Park, fulfilling the promise of a comprehensive and accessible aquatic facility as originally intended and supported through significant community engagement and approved funding.

Sincerely,

Tamara Geren

Dear Mayor and City Council,

I urge you to reprioritize the Tracy Aquatic Park and implement the Community's Aquatic Park Design Plans – plans developed over two decades through extensive collaboration with city staff, civic leaders, and residents.

Since the passage of Measure V, the Aquatic Park has consistently been identified as a vital community amenity, with funding approved in both 2018 and 2020. However, recent staff decisions have sidelined this project in favor of the Multi-Generational Rec Center, whose cost and scope were more than doubled to include city offices and department relocations, none of which were part of the original vision.

In contrast, the Aquatic Park was reduced to a bare-bones design and constrained by a restrictive budget cap, unlike Legacy Fields or the Multi-Gen Center.

The community deserves the inclusive, year-round aquatic facility it was promised, one that serves all ages and abilities.

I respectfully ask this Council to honor the city's longstanding commitment and adopt the Community's Aquatic Park Design.

Sincerely,

From: [Gil Paet](#)

Dear Mayor and Esteemed City Council Members,

I hope this message finds you well. I'm writing on behalf of our community to express strong support for the development of a world-class aquatic park that reflects our shared vision for inclusive, innovative, and family-friendly public spaces.

Our community has thoughtfully crafted a design plan that prioritizes accessibility, sustainability, and multi-generational engagement. This proposed aquatic park would offer a vibrant mix of recreational features—such as splash zones for children, lap pools for fitness enthusiasts, shaded relaxation areas for seniors, and adaptive facilities for individuals with special needs.

We believe this project will:

- Enhance the quality of life for residents of all ages
- Promote health, wellness, and social connection

We respectfully urge the city to consider allocating resources and initiating the development process for this transformative project. Our community is eager to collaborate and contribute to making this vision a reality.

Thank you for your continued commitment to enriching our city. We look forward to your support and leadership in bringing this park to life.

Thank

Saicharan Uppala

Dear Mayor and City Council,

My name is Jacob Glick and I urge you to reprioritize the Tracy Aquatic Park and implement the Community's Aquatic Park design plans.

I use to be a swimmer on the Tracy Triton's from 4th grade all the way up to high school. I still remember the day that the people designing the aquatic park came to our practice and asked us what we would like to see most of Tracy had built one of these and seeing the plans years latter, it was exactly what I wanted! It was such a cool place to spend the summer that I was so excited to finally have something cool in Tracy.

After years of waiting though, seeing the ground being put set aside for this amazing park, and still nothing has left me feeling discouraged. I believe the aquatic park would be an amazing thing for this town. It would generate so many jobs and it would bring in so much revenue that we could use to help change Tracy for the better!

The community deserves the inclusive, year-round aquatic facility it was promised, one that serves all ages and abilities.

I respectfully ask this Council to honor the city's longstanding commitment and adopt the Community's Aquatic Park Design.

Sincerely, Jacob Glick

Dear Mayor and City Council,

I urge you to reprioritize the Tracy Aquatic Park and implement the Community's Aquatic Park Design Plans – plans developed over two decades through extensive collaboration with city staff, civic leaders, and residents.

Since the passage of Measure V, the Aquatic Park has consistently been identified as a vital community amenity, with funding approved in both 2018 and 2020. However, recent staff decisions have sidelined this project in favor of the Multi-Generational Rec Center, whose cost and scope were more than doubled to include city offices and department relocations, none of which were part of the original vision.

In contrast, the Aquatic Park was reduced to a bare-bones design and constrained by a restrictive budget cap, unlike Legacy Fields or the Multi-Gen Center.

The community deserves the inclusive, year-round aquatic facility it was promised, one that serves all ages and abilities.

I respectfully ask this Council to honor the city's longstanding commitment and adopt the Community's Aquatic Park Design. Mr. Mayor, you went to school with my son, Matthew. I voted for you based on that and the former Mayor, my neighboring friend Nancy Young recommended you. This promise of an Aquatic Park was happening when you and Matt were in school together. My other kids were younger and are now grown with children. Manteca (Wolf Lodge), Lathrop (Chic Fila) and Stockton are thriving, while we look defeated! I am over the moon happy for our Trader Joes! However, our mall, outlets and downtown have sadly and ridiculously dwindled! It's past time to put TRACY back on the envy list and bring excitement to our city for the family who've invested in our lives here! Let's GO!

Thank you!

Sincerely,

Debra Miller

Dear Mayor and City Council,

I urge you to reprioritize the Tracy Aquatic Park and implement the Community's Aquatic Park Design Plans – plans developed over two decades through extensive collaboration with city staff, civic leaders, and residents.

Since the passage of Measure V, the Aquatic Park has consistently been identified as a vital community amenity, with funding approved in both 2018 and 2020. However, recent staff decisions have sidelined this project in favor of the Multi-Generational Rec Center, whose cost and scope were more than doubled to include city offices and department relocations, none of which were part of the original vision.

In contrast, the Aquatic Park was reduced to a bare-bones design and constrained by a restrictive budget cap, unlike Legacy Fields or the Multi-Gen Center.

The community deserves the inclusive, year-round aquatic facility it was promised, one that serves all ages and abilities.

I respectfully ask this Council to honor the city's longstanding commitment and adopt the Community's Aquatic Park Design.

Sincerely,

Neeshkin Coleman

Dear Mayor and City Council,

I urge you to restore priority to the Tracy Aquatic Park and move forward with the Community's Aquatic Park Design Plans — plans shaped over more than two decades through collaboration among city staff, civic leaders, and residents.

Since the passage of Measure V, the Aquatic Park has been consistently recognized as a vital community amenity, with dedicated funding approved in both 2018 and 2020. Yet recent decisions have pushed this project aside in favor of the Multi-Generational Recreation Center, whose cost and scope have more than doubled to include city offices and department relocations — elements never part of the original vision.

By contrast, the Aquatic Park has been pared down to a minimal design and constrained by an unusually strict budget cap, unlike other projects such as Legacy Fields or the Multi-Gen Center. This is a disservice to the community. Tracy residents deserve the inclusive, year-round aquatic facility that was promised — one designed to serve all ages and abilities.

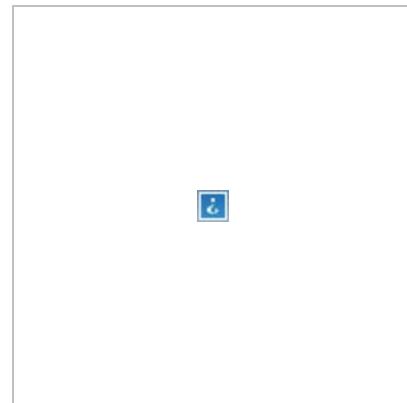

I respectfully ask this Council to honor its longstanding commitment and adopt the Community's Aquatic Park Design in full.

Sincerely,

Jordan Budi

After an 18-year delay, we finally have a promising opportunity to make the Tracy Aquatic Center a reality. Community momentum has grown significantly over the past three years, with strong support and advocacy for this much-needed facility.

On April 15th, the council approved Agenda Item 3A—Implementation of the Aquatic Center Final Conceptual Plan, as presented by the third-party design team, with the majority of votes. I fully support the proposed budget of \$55 million (plus an additional \$10 million contribution from the builder, totaling \$65 million) to bring this vision to life.

We don't want a \$160 million water park to burden the taxpayers. Don't make the Tracy resident pay for years.

Tracy residents eagerly look forward to the groundbreaking in 2026 and a grand opening 2028. This project will be a landmark achievement for our city and a vital investment in our community's health, safety, and recreation.

Thank you for your attention to this critical matter. I trust the council will follow the recommended design and funding, which they have approved, and help us finally realize this long-awaited dream.

Tracy's residence are waiting for this project so many years and let's not waste time any no more please

Thank you

We don't want a \$160 million water park to burden the taxpayers. Don't make the Tracy resident pay for years.

Tracy residents eagerly look forward to the groundbreaking in 2026 and a grand opening 2028. This project will be a landmark achievement for our city and a vital investment in our community's health, safety, and recreation.

Thank you for your attention to this critical matter. I trust the council will follow the recommended design and funding, which they have approved, and help us finally realize this long-awaited dream.

Tracy's residence doesn't need any more dramas and dilemmas.

Thanks
Suneet

Hello Team,

After an 18-year delay, we finally have a real opportunity to make the Tracy Aquatic Center a reality. Over the past three years, community momentum has grown significantly, with strong public support and advocacy for this much-needed facility.

On April 15th, the council approved Agenda Item 3A—Implementation of the Aquatic Center Final Conceptual Plan, as presented by the third-party design team—with the majority vote. I fully support the proposed budget of \$55 million (plus an additional \$10 million contribution from the builder, totaling \$65 million) to bring this vision to life.

We do not want a \$160 million water park that would burden taxpayers for years. Tracy residents should not have to shoulder unnecessary costs for an overbuilt project.

Our community is eager to see groundbreaking in 2026 and a grand opening in 2028. This project will be a landmark achievement for our city and a vital investment in public health, safety, and recreation.

I urge the council to follow the approved design and funding plan without further delays or costly deviations. After nearly two decades of waiting, Tracy residents deserve action—not more drama or dilemmas.

Thank you for your attention to this critical matter.

Thank you,
Pratik Vakil

Dear Mayor and City Council,

I urge you to reprioritize the Tracy Aquatic Park and implement the Community's Aquatic Park Design Plans – plans developed over two decades through extensive collaboration with city staff, civic leaders, and residents.

Since the passage of Measure V, the Aquatic Park has consistently been identified as a vital community amenity, with funding approved in both 2018 and 2020. However, recent staff decisions have sidelined this project in favor of the Multi-Generational Rec Center, whose cost and scope were more than doubled to include city offices and department relocations, none of which were part of the original vision.

In contrast, the Aquatic Park was reduced to a bare-bones design and constrained by a restrictive budget cap, unlike Legacy Fields or the Multi-Gen Center.

The community deserves the inclusive, year-round aquatic facility it was promised, one that serves all ages and abilities.

I respectfully ask this Council to honor the city's longstanding commitment and adopt the Community's Aquatic Park Design.

Sincerely,
Peter G.

After nearly two decades of anticipation, Tracy is now poised to turn the long-awaited Aquatic Center into a reality. Over the past three years, community support has grown steadily, reflecting a shared commitment to bringing this essential facility to life.

On April 15th, the City Council took a significant step forward by approving Agenda Item 3A —Implementation of the Aquatic Center Final Conceptual Plan. The proposal, presented by the third-party design team, received majority support, and I wholeheartedly endorse the recommended budget of \$55 million, supplemented by a generous \$10 million contribution from the builder, bringing the total to \$65 million.

This plan reflects a balanced and responsible approach—one that prioritizes community needs without placing undue financial strain on residents. Tracy does not need a \$160 million water park that could burden taxpayers for years to come. Instead, we need a facility that serves our families, promotes health and safety, and enhances recreational opportunities for all.

Residents are excited about the projected timeline, with groundbreaking anticipated in 2026 and a grand opening in 2028. This project will be a landmark achievement for our city and a meaningful investment in our future.

Thank you for your continued attention to this important initiative. I trust the Council will honor the approved design and funding strategy, and help us move forward with clarity and purpose. Our community deserves progress—not prolonged uncertainty.

Warm Regards,
Anupam Chakraborty,
Tracy, CA, US | America / Los Angeles

Hello,

It's come to my attention that Surland developers are trying to delay once again the aquatic center. You already approved this. Please do what you promised to do for the people of Tracy. I know you will already do what you promised you would do for Ridgeline Properties. So please give us the same consideration as you would give an out of state business. We are the ones who live here, after all.

Thanks,
Andrea

Dear Honorable Members of the Tracy City Council,

After nearly two decades of delay, we are finally presented with a promising and tangible opportunity to make the Tracy Aquatic Center a reality. Over the past three years, public support for this project has grown significantly, with widespread community advocacy underscoring the critical need for such a facility in our city.

On April 15th, the City Council approved **Agenda Item 3A – Implementation of the Aquatic Center Final Conceptual Plan**, as presented by the independent third-party design team. I write to formally express my full support for the approved plan and the associated budget of **\$55 million**, plus the additional **\$10 million contribution from the builder**, for a total of **\$65 million**.

This plan represents a fiscally responsible and well-considered approach to delivering a much-needed resource for our residents. Conversely, proposals suggesting a significantly more expensive alternative—such as a \$160 million water park—would place an unnecessary financial burden on Tracy taxpayers for years to come. We must avoid overextending our community for amenities that exceed both our immediate needs and fiscal capacity.

Tracy residents look forward with anticipation to the planned **groundbreaking in 2026** and the **grand opening in 2028**. The Aquatic Center will serve as a landmark achievement and a long-term investment in public health, safety, and recreation for residents of all ages.

I respectfully urge the Council to continue supporting the approved conceptual design and funding structure and to maintain momentum on this long-awaited project. Tracy's residents deserve progress, not further delays, drama, or division.

Thank you for your continued leadership and for your commitment to realizing this vital community asset.

Sincerely,
-Parveen Singh

Dear Mayor and City Council,

I'm writing to you today as a concerned Tracy resident about the Tracy Aquatic Park. We've been working on this for over 20 years – the community, city staff, everyone – to create an amazing aquatic center that truly reflects what Tracy needs. We poured our hearts into designing something incredible, and it felt like things were really moving forward after Measure V passed and we got that funding in 2018 and 2020.

But lately, it feels like the Aquatic Park has gotten the short end of the stick. The budget cuts have seriously downsized the project, leaving it a shadow of what we planned. It's especially frustrating seeing other projects, like the Multi-Generational Recreation Center, get extra funding and even expand beyond their original plans. Adding city offices to that project – something not even on the initial drawing board – just highlights the difference in how things are being prioritized.

The current plan for the Aquatic Park is...well, it's just not good enough. It's not what our community deserves. We need a facility that everyone – kids, adults, people of all abilities – can enjoy, a place that truly makes Tracy a better place to live year-round. Look at how much support Legacy Fields got – the Aquatic Park deserves the same level of commitment and funding.

So, I'm asking you to please reconsider the budget. Let's build the Aquatic Park we've all been working towards, the one our community deserves. Keeping the promise we made to build this fantastic center would mean so much to so many people and would make a real difference in the quality of life in Tracy.

Thanks for listening,

Tina Perez

Dear Mayor and City Council,

As a resident of the City of Tracy for over 25 years, my family and I have always hoped for an aquatic center in our own community. We currently travel to Dublin or Brentwood to enjoy their aquatic centers, and we believe Tracy deserves a similar amenity.

I strongly encourage you to adopt the Community Design Plans for the Aquatic Park and direct staff to move forward with its implementation. It is time for the city to fulfill its long-standing promise, honor the decades of collaboration between the council, staff, and the community, and build this much-needed amenity.

These design plans offer something for everyone, truly creating a water park for our residents. I urge you to set aside past politics and be the council that delivers this amenity to the community.

Thank you for your time and consideration.

Sincerely,
Maria Salinas

Dear Mayor and City Council,

Please adopt the Community Design Plans for the Aquatic Park and direct staff to move forward with implementation. I moved to Tracy from East Los Angeles and found this city beautiful. All we need is something big like this aquatic center.

It's time for the city to deliver on its long-time promise, honor the decades of collaboration between council, staff, and the community, and build this much-needed amenity.

These design plans offer something for everyone – a true water park.

So, please, put all the past politics aside, and be the council that delivers this amenity to the community.

Thank you.

Sincerely,
Johanna Gomez

An aquatic center would be a huge draw to revitalize Tracy's retail economy. We need things to do locally so that folks will spend their money here. An aquatic center will increase retail sales in adjacent products. It's a win-win. The city should rent space in Tracy Mall for community activities to draw more events there to increase utilization. It's pretty dismal right now.

Thank you. Sincerely,
Patrick and Carole Hamilton, villagers for 24 years.

Dear Mayor and City Council,

I urge you to reprioritize the Tracy Aquatic Park and implement the Community's Aquatic Park Design Plans – plans developed over two decades through extensive collaboration with city staff, civic leaders, and residents. With a population of over 100,000 and the extreme heat residents need this. More than distribution centers or homeless shelters. Parents cannot drive 30 plus mins to get to a pool.

Since the passage of Measure V, the Aquatic Park has consistently been identified as a vital community amenity, with funding approved in both 2018 and 2020. However, recent staff decisions have sidelined this project in favor of the Multi-Generational Rec Center, whose cost and scope were more than doubled to include city offices and department relocations, none of which were part of the original vision.

In contrast, the Aquatic Park was reduced to a bare-bones design and constrained by a restrictive budget cap, unlike Legacy Fields or the Multi-Gen Center.

The community deserves the inclusive, year-round aquatic facility it was promised, one that serves all ages and abilities.

I respectfully ask this Council to honor the city's longstanding commitment and adopt the Community's Aquatic Park Design.

Sincerely,

Libby Tan

Dear Mayor and City Council,

I strongly encourage you to adopt the Community Design Plans for the Aquatic Park and direct staff to move forward with implementation.

I think creating more of a reason for visitors to stop by Tracy (instead of living) can create good revenue for the city. Look at cities like San Francisco, L.A., or Vegas. They all prosper because of they have a landmark or a piece of attraction for people outside of the city. This isn't just adopting a new park, this is adopting decades of tourism.

It's time for the city to deliver on its long-time promise, honor the decades of collaboration between council, staff, and the community, and build this much-needed amenity.

These design plans offer something for everyone – a true water park.

So, please, put all the past politics aside, and be the council that delivers this amenity to the community.

Dear Mayor and City Council, I strongly encourage you to adopt the Community Design Plans for the Aquatic Park and direct staff to move forward with implementation. It's time for the city to deliver on its long-time promise, honor the decades of collaboration between council, staff, and the community, and build this much-needed amenity. These design plans offer something for everyone – a true water park. So, please, put all the past politics aside, and be the council that delivers this amenity to the community. Thank you. Sincerely,

Yes. It has been such a long time & nothing done...

Thang Nghiêm

Dear Mayor and City Council,

I'm a 5-year resident of the city of Tracy. We moved into Ellis in August 2020 with the promise of amenities in our neighborhood, to include an Aquatic Center for our kids. My wife and I have been frustrated at the frequent delays with the start of this project.

I strongly encourage you to adopt the Community Design Plans for the Aquatic Park and direct staff to move forward with implementation. It's time for the city to deliver on its long-time promise, honor the decades of collaboration between council, staff, and the community, and build this much-needed amenity. These design plans offer something for everyone – a true water park. So, please, put all the past politics aside, and be the council that delivers this amenity to the community.

On a more frank note, I literally voted for Mayor Arriola, and Councilmembers Nygard and Abercrombie solely because they supported building the Acquatic Center. You have the power, so please make this happen!

Thanks,

Dan Glorsky

Dear Mayor and City Council,

I do not agree with the huge aquatic park. The best thing for Tracy would be an aquatic center like Livermore or Pleasanton-it has a kids section with water play things and a beach type shallow edge, a deeper pool with a water slide, and an olympic sized separate pool. This way more people will be able to afford to enjoy the park, and not be charged \$40+ dollars per person to get in. Now if you can pay separate prices for just the smaller pools and not the whole water park, then that's another issue. That needs to be conveyed to the public.

My family has been residents of Tracy since 1995, and this pool situation is truly a big joke! This should never have taken this long!

Thank you.

Sincerely,

Brian and Errolyn Springer

Dear Mayor and City Council,

I strongly encourage you to adopt the Community Design Plans for the Aquatic Park and direct staff to move forward with implementation. It's time for the city to deliver on its long-time promise, honor the decades of collaboration between council, staff, and the community, and build this much-needed amenity. These design plans offer something for everyone – a true water park. So, please, put all the past politics aside, and be the council that delivers this amenity to the community. Thank you.

Sincerely,
Justine Ith

Dear Mayor and City Council,

I strongly encourage you to adopt the Community Design Plans for the Aquatic Park and direct staff to move forward with implementation.

We have lived in Tracy for over 25 years, and the Aquatic Park has been a subject of conversation for that entire time. While Tracy has argued about what to do, other surrounding cities have invited significant investments that have produced amazing results.

Now our kids are grown, but are not sure they want to raise their kids in Tracy because "there is nothing to do."

It's time for the city to deliver on its long-time promise, honor the decades of collaboration between council, staff, and the community, and build this much-needed amenity.

These design plans offer something for everyone – a true water park.

So, please, be the council that delivers this amenity to the community.

Thank you.

Sincerely,
Doug Maxfield

Hi TracyCouncil Member,

After an 18-year delay, we finally have a promising opportunity to make the Tracy Aquatic Center a reality. Community momentum has grown significantly over the past three years, with strong support and advocacy for this much-needed facility.

On April 15th, the council approved Agenda Item 3A—Implementation of the Aquatic Center Final Conceptual Plan, as presented by the third-party design team, with the majority of votes. I fully support the proposed budget of \$55 million (plus an additional \$10 million contribution from the builder, totaling \$65 million) to bring this vision to life.

We don't want a \$160 million water park to burden the taxpayers. Don't make the Tracy resident pay for years.

Tracy residents eagerly look forward to the groundbreaking in 2026 and a grand opening 2028. This project will be a landmark achievement for our city and a vital investment in our community's health, safety, and recreation.

Thank you for your attention to this critical matter. I trust the council will follow the recommended design and funding, which they have approved, and help us finally realize this long-awaited dream.

Tracy's residence doesn't need any more dramas and dilemmas.

--

Thanks & Regards
Ajay Gautam

Dear Mayor and City Council,

Why do we have a multi-generational center being built before the aquatic center. Get it built. And make sure there is an indoor pool included. It is ridiculous that the only pool we have in town is in shape. Why wait for next year - start it now!

I am a resident and pool user since I moved here in 1990.

I strongly encourage you to adopt the Community Design Plans for the Aquatic Park and direct staff to move forward with implementation.

It's time for the city to deliver on its long-time promise, honor the decades of collaboration between council, staff, and the community, and build this much-needed amenity.

Dear Mayor and City Council,

I urge you to reprioritize the Tracy Aquatic Park and implement the Community's Aquatic Park Design Plans – plans developed over two decades through extensive collaboration with city staff, civic leaders, and residents.

Since the passage of Measure V, the Aquatic Park has consistently been identified as a vital community amenity, with funding approved in both 2018 and 2020. However, recent staff decisions have sidelined this project in favor of the Multi-Generational Rec Center, whose cost and scope were more than doubled to include city offices and department relocations, none of which were part of the original vision.

In contrast, the Aquatic Park was reduced to a bare-bones design and constrained by a restrictive budget cap, unlike Legacy Fields or the Multi-Gen Center.

The community deserves the inclusive, year-round aquatic facility it was promised, one that serves all ages and abilities.

I respectfully ask this Council to honor the city's longstanding commitment and adopt the Community's Aquatic Park Design.

Sincerely,

Dear Mayor and City Council,

The Aquatic park should have been built many years ago. My kids missed out on it, as they are now grown and have moved away, but this still needs to be built. (Coincidentally all 3 of my sons now live in communities with a water park and their children will have what they didn't).

I strongly encourage you to adopt the Community Design Plans for the Aquatic Park and direct staff to move forward with implementation.

It's time for the city to deliver on its long-time promise, honor the decades of collaboration between council, staff, and the community, and build this much-needed amenity.

Dear Mayor and City Council,

I urge you to reprioritize the Tracy Aquatic Park and implement the Community's Aquatic Park Design Plans – plans developed over two decades through extensive collaboration with city staff, civic leaders, and residents.

Since the passage of Measure V, the Aquatic Park has consistently been identified as a vital community amenity, with funding approved in both 2018 and 2020. However, recent staff decisions have sidelined this project in favor of the Multi-Generational Rec Center, whose cost and scope were more than doubled to include city offices and department relocations, none of which were part of the original vision.

In contrast, the Aquatic Park was reduced to a bare-bones design and constrained by a restrictive budget cap, unlike Legacy Fields or the Multi-Gen Center.

The community deserves the inclusive, year-round aquatic facility it was promised, one that serves all ages and abilities.

I respectfully ask this Council to honor the city's longstanding commitment and adopt the Community's Aquatic Park Design.

Sincerely,
Cielo Timbol

Dear Mayor and City Council,

I strongly encourage you to adopt the Community Design Plans for the Aquatic Park and direct staff to move forward with implementation.

It's time for the city to deliver on its long-time promise, honor the decades of collaboration between council, staff, and the community, and build this much-needed amenity.

These design plans offer something for everyone – a true water park.

So, please, put all the past politics aside, and be the council that delivers this amenity to the community.

Thank you.

Sincerely,
Tarly Coffey

Hello Tracy Council

Hope you're doing well, I Rupinder Singh, a Tracy resident want to bring our city's pride project to your attention.

After an 18-year delay, we finally have a promising opportunity to make the Tracy Aquatic Center a reality. Community momentum has grown significantly over the past three years, with strong support and advocacy for this much-needed facility.

On April 15th, the council approved Agenda Item 3A—Implementation of the Aquatic Center Final Conceptual Plan, as presented by the third-party design team, with the majority of votes. I fully support the proposed budget of \$55 million (plus an additional \$10 million contribution from the builder, totaling \$65 million) to bring this vision to life.

We don't want a \$160 million water park to burden the taxpayers. Don't make the Tracy resident pay for years.

Tracy residents eagerly look forward to the groundbreaking in 2026 and a grand opening 2028. This project will be a landmark achievement for our city and a vital investment in our community's health, safety, and recreation.

Thank you for your attention to this critical matter. I trust the council will follow the recommended design and funding, which they have approved, and help us finally realize this long-awaited dream.

Tracy's residence doesn't need any more dramas and dilemmas.

Best
Rupinder Singh

Dear Mayor and City Council,

I strongly disagree with this project, do you people even realize what kind of unsavory people you are going to attract to Tracy?!?! I've seen it and lived it, you will be getting gang bangers, low life's, transients and basic filthy people !!

You are going to need security and police there pretty much 7 days a week!! Is Tracy ready for this influx of degenerates?!?! I think not!!

Maybe you should think about more grocery stores and shopping centers first before this catastrophe!!! We've grown so much in the past few years that the stores here are struggling just to keep up inventory. Whom ever thought of this idea is a hair brain idiot!!!

Thank you.

We don't want a \$160 million water park to burden the taxpayers. Don't make the Tracy resident pay for years.

Tracy residents eagerly look forward to the groundbreaking in 2026 and a grand opening 2028. This project will be a landmark achievement for our city and a vital investment in our community's health, safety, and recreation.

Thank you for your attention to this critical matter. I trust the council will follow the recommended design and funding, which they have approved, and help us finally realize this long-awaited dream.

Tracy's residence doesn't need any more dramas and dilemmas.

Thanks,
Sai Penmetsa

Dear Mayor and City Council,

I strongly encourage you to adopt the Community Design Plans for the Aquatic Park and direct staff to move forward with implementation.

It's time for the city to deliver on its long-time promise, honor the decades of collaboration between council, staff, and the community, and build this much-needed amenity.

These design plans offer something for everyone – a true water park.

So, please, put all the past politics aside, and be the council that delivers this amenity to the community.

Thank you. and God Bless people in Tracy!

Sincerely,

Hello Tracy city council members ,

After an 18-year delay, we finally have a promising opportunity to make the Tracy Aquatic Center a reality. Community momentum has grown significantly over the past three years, with strong support and advocacy for this much-needed facility.

On April 15th, the council approved Agenda Item 3A—Implementation of the Aquatic Center Final Conceptual Plan, as presented by the third-party design team, with the majority of votes. I fully support the proposed budget of \$55 million (plus an additional \$10 million contribution from the builder, totaling \$65 million) to bring this vision to life.

We don't want a \$160 million water park to burden the taxpayers. Don't make the Tracy resident pay for years.

Tracy residents eagerly look forward to the groundbreaking in 2026 and a grand opening 2028. This project will be a landmark achievement for our city and a vital investment in our community's health, safety, and recreation.

Thank you for your attention to this critical matter. I trust the council will follow the recommended design and funding, which they have approved, and help us finally realize this long-awaited dream.

Tracy's residence doesn't need any more dramas and dilemmas.

Dear Mayor and city council,

We need a location for families to come together and play with their kids. We are a commuting town and need recreational resources that we don't have to commute too. This also gets families to dine out. Keep in mind this is also exercise, which let's face it we all could use!! Our kids need places to go have fun at all ages. It would bring some tourism too.

Thank you.

Sincerely,
Indra Lucid

Dear Mayor and City Council,

I urge you to reprioritize the Tracy Aquatic Park and implement the Community's Aquatic Park Design Plans – plans developed over two decades through extensive collaboration with city staff, civic leaders, and residents.

Since the passage of Measure V, the Aquatic Park has consistently been identified as a vital community amenity, with funding approved in both 2018 and 2020. However, recent staff decisions have sidelined this project in favor of the Multi-Generational Rec Center, whose cost and scope were more than doubled to include city offices and department relocations, none of which were part of the original vision.

In contrast, the Aquatic Park was reduced to a bare-bones design and constrained by a restrictive budget cap, unlike Legacy Fields or the Multi-Gen Center.

The community deserves the inclusive, year-round aquatic facility it was promised, one that serves all ages and abilities.

I respectfully ask this Council to honor the city's longstanding commitment and adopt the Community's Aquatic Park Design.

Sincerely,
BethEstella

Lived in the Westgate neighborhood 9 years. Great to see the city listening to our feedback and getting results. For example, our new Trader Joe's!

This water park using the community's design plans has felt like a pipe dream but just imagine the benefits! Myself and immediate friends and family would go all the time during our nearly 8 month summers. Plus we'd be less of a joke to the surrounding area if we pull this off! Haha

Looking forward to getting this done, and done right.

Hi Counsel Members

After an 18-year delay, we finally have a real opportunity to make the Tracy Aquatic Center a reality. Over the past three years, community momentum has grown tremendously, with strong advocacy and broad support for this much-needed facility.

On April 15th, the council approved Agenda Item 3A—Implementation of the Aquatic Center Final Conceptual Plan, as presented by the third-party design team—with the majority vote. I fully support the proposed budget of \$55 million, along with the builder's additional \$10 million contribution, bringing the total to \$65 million to bring this vision to life.

We do not need a \$160 million water park that would place a heavy burden on taxpayers. Tracy residents should not be left paying for decades.

Our community eagerly looks forward to the groundbreaking in 2026 and the grand opening in 2028. This project will stand as a landmark achievement for our city and a vital investment in health, safety, and recreation.

Thank you for your attention to this critical matter. I trust the council will honor the approved design and funding plan and help us finally realize this long-awaited dream. Tracy residents deserve progress—not more delays or unnecessary drama.

Thanks & Regards

Ratnakar

Dear City of Tracy Leaders,

I'm writing to strongly urge the City Council and staff to reprioritize and fully implement the **Community's Aquatic Park Design Plans**—plans that have been developed over more than two decades through extensive collaboration with city staff, civic leaders, and residents.

Since the passage of **Measure V**, the Aquatic Park has been consistently identified by the community as a vital, family-focused amenity. Funding for this project was approved in both **2018 and 2020**, reinforcing the City's commitment to delivering a high-quality aquatic facility. Unfortunately, recent decisions have pushed this long-promised project to the sidelines.

Instead, focus has shifted to the Multi-Generational Recreation Center—a project whose scope and cost have more than doubled to include **administrative offices and department relocations**, none of which were included in the original community vision. Meanwhile, the Aquatic Park has been scaled down to a bare-bones version and limited by a restrictive budget cap, unlike projects such as **Legacy Fields** or the **Multi-Gen Center**, which have received more flexible funding and support.

This is deeply disappointing. Tracy is a growing city with expanding neighborhoods, but there remains very little in terms of recreation, especially for families. We are seeing more homes, warehouses, and restaurants, but very few spaces that bring people together and improve our quality of life. A **year-round aquatic facility**—designed for all ages and abilities—would serve as a vital hub for health, safety, and community connection.

Scaling back this park undermines years of planning and public input. It sends a message that community voices and priorities are being ignored.

I respectfully ask the City Council to **honor its long-standing commitment** to residents and adopt the **full Community Aquatic Park Design**—not a watered-down alternative. The residents of Tracy deserve a facility that reflects the vision, planning, and trust we've all invested in this process.

Thank you for your service to our city. I hope you will listen to the community and lead boldly on this issue.

Sincerely,
Erika Mallory

Lifelong resident of Tracy

Members of the Council,

I strongly support the community-driven plan and respectfully request that the Council discontinue pursuing the alternative proposal adopted by the prior Council.

The community-driven plan—developed through years of input and collaboration from local residents—represents a much-needed and meaningful addition to our town. Our community has long lacked amenities that serve residents of all ages and interests. Unlike other recent City projects, this proposal would benefit a wide spectrum of residents: swim teams, seniors, families seeking swim lessons, and individuals simply looking for a place to cool off.

If constructed as envisioned, the aquatic center will not only provide vital recreational opportunities but also help redefine our community's identity—shifting it away from being seen primarily as a commuter town and toward being recognized as a place where people can truly live, connect, and thrive.

I urge the Council to abandon the pared-down version advanced by the prior Council and instead invest in the full community-designed plan—an investment that will fundamentally transform our community for the better.

Thank you,

Brandon Kanner
